2025 Effie Awards Category Overview

CATEGORY LIMIT

Efforts can be entered into multiple categories under Industry or Specialty Categories. Of the total number of entries, only one can be an industry category.

- When entering any of these categories, present the submission in a way that addresses the situation or challenge as outlined in the category definition. It is critical to thoroughly review the category definitions to ensure your effort meets the criteria. Judges will down-score your entry if you are missing information required by the category definition.
- Each entry should be customized to speak to the specifics of each category whenever applicable. Judges express difficulty in effectively evaluating a case when an entry wasn't tailored appropriately.
- You will need to complete a separate entry form and pay the entry fee for each category.
- Category definitions provide guidance regarding the types of products/services that may enter; however, it's not an exclusive list. For questions regarding what category best fits your brand, email awards@aaaa.com.hk.
- Effie reserves the right to re-categorize entries, split/redefine categories, and/or refuse entries at any time. Test market entries are not eligible for the Effie Awards Hong Kong competition.

They will need a clear rationale for why social was the right way to tackle the brief, and evidence of how social activity measurably and materially drove the commercial result. It is not enough to count the number of impressions, likes or shares. You will need to measure and prove the commercial value of social through the direct effect it had on audience behavior or perceptions and demonstrate correlation with the achieved business results.

Business/Product/Service Innovation: In this category, innovative single marketing & business activities or entire marketing programs will be awarded. You can submit any action or business idea regarding innovation for the product, service or business that has had an exceptionally positive impact on the market position of a business, brand, product or service. Customer Experience: In this category, innovative single marketing & business activities or entire marketing programs will be awarded. You can submit any action or business idea regarding customer experience innovation that has had an exceptionally positive impact on the market position of a business, brand, product or service. If communication was a significant element of marketing mix, work should be submitted in another competition category of Effie.

Examples of eligible activities in this category include: design, technology or UX innovation for the customer experience; consumer involvement in product development; introduction/change of a loyalty program, introduction of a new distribution channel, etc.

Data-Driven: Data-driven is the application of data and/or technology to connect people to the brand at the right moment/s. These efforts should prove how they specifically utilized data to drive creativity or to optimize media to improve business outcomes (brand kpis, ROI, performance marketing measures, etc.).

The best examples will recognize the interplay and application of data, inclusive of automation and AI, to engage with and/or deliver to a precise audience and achieve the best results. To enter, your case must detail the role that data had within the creative and/or media strategy in achieving the brand and business goals.

Submissions must detail the strategic rationale for the partnership, the selection process, and how the partnership led to results that achieved the brand's objectives.

Media Idea: This category is about outstanding effectiveness as a result of media-led ideas. The line between what constitutes a creative idea and a media idea is blurring and there are occasions when the media idea drove the entire effort. Of course, media cannot exist without the content, but this award is intended to recognize those cases that were led by the media thinking - where the integration of media and message led to success. The award honors media-led ideas that are powerful enough to become the genesis of the marketing program itself, to the extent that the program would not have been successful without the strategic media idea.

Media Innovation: Emerging & New Channels / Existing Channels

This award showcases those who had the insight and creativity to change the way a particular media channel is consumed, or to create a new channel. The award will go to brands who reached out of the conventional approach to grab their audience and effectively engage with them. Note: All entries must specifically address what was innovative and the results achieved. Address the category situation and provide clear articulation of how the media was used innovatively and how the media strategy/plan optimized the results.

POSITIVE CHANGE

in collaboration with the World Economic Forum

The Positive Change Effies reward and celebrate the brands and non-profits that are promoting the greater good through purpose-driven marketing. The program has two tracks - Environmental and Social Good.

Environmental

The Positive Change: Environmental category celebrates efforts that have measurably shifted audience behavior toward more environmentally sustainable choices, and/or grown demand for more sustainable products and services by incorporating environmentally-conscious messaging into their marketing.

Winners of this award showcase how effective marketing programs that incorporate sustainable strategies can make a positive difference for brands and for the environment.

Over and above the standard Effie requirements to demonstrate a positive impact on business, there are specific areas of interest that relate to this award.

Efforts entered must have as one of their main strategic objectives changing audience behavior towards more environmentally sustainable choices and environmentally conscious messaging must be a part of the marketing.

Entrants should address how the sustainability goal relates back to the overall brand and business strategy.

Criterion for this award is the result of behavior change toward more environmentally sustainable choices, with these elements being considered in judging:

Awareness - Making the audience aware of a sustainable product, service or action.

Trial - Trying the sustainable product, service or action for the first time.

Product/Service Substitution - Switching to a more sustainable product, service or action.

Change in Use - Using a product/service more sustainably than before or taking a more sustainable action.

Positive Change: Environmental - Brands/Non-Profit

Environmental – Brands

Recognizing brands with marketing programs that have measurably shifted audience (B2B or B2C) behavior toward more environmentally sustainable choices, and/or grown demand for more sustainable products and services by incorporating environmentally conscious messaging into their marketing.

Environmental – Non-Profit

Recognizing non-profit organizations and associations with marketing programs that have measurably shifted audience (B2B or B2C) behavior toward more environmentally sustainable choices, grown demand for more sustainable products and services, and/or measurably drove positive impact for their cause by incorporating environmentally conscious messaging into their marketing.

Social Good

The Positive Change: Social Good category celebrates marketing efforts proven effective in addressing a social problem or in expanding an existing program in ways that benefit our society. Any effort that sets out to give back in some way for the greater good is eligible to enter. Maybe it was for profit, maybe not. Maybe you got paid, maybe you didn't. Any and all marketing efforts, whether full campaigns or unique efforts within a campaign are eligible to enter as long as measurable results exist.

Social Good – Brands

Recognizing brands that are making the world a better place by using the power of their marketing platforms for "good." This category celebrates for-profit brand efforts that effectively combined business goals with a social cause (health, education, community, family, etc.) and successfully related that cause back to the company's overall brand strategy, resulting in positive business and social impact.

Social Good – Non-Profit

Recognizing non-profit organizations and associations whose marketing efforts have effectively driven positive change for society and successfully contributed back to the organization's purpose. Campaigns must show measurable impact and proven results in support of the cause.

Social Good – Diversity/Equity/Inclusion

This category applies to any campaigns, brand or non-profit, whose success was dependent on effectively and authentically connecting with specific cultural, ethnic or underrepresented groups or communities (example: LGBT, differently abled, indigenous peoples, etc.). Efforts may include equal rights messages, stereotype elimination, anti-prejudice or other than work to positively impact said groups or communities. If the entry had multiple audiences, it is necessary to demonstrate results for the specific audience detailed in the entry.

Identify any elements in the creative work or strategy that are specifically directed to this community and any relevant cultural differences, dynamics and/or nuances, traditions, values, linguistic characteristics, and their significance with respect to your submission. Judges may not be familiar with your particular segment, so this is your opportunity to showcase the details that they may miss.

Crisis Response / Critical Pivot updated

This category recognizes brands that successfully navigated significant structural and cultural shifts or moments of crisis (e.g., pandemic, social justice movements, political events) by effectively pivoting their marketing strategy or business activities. Entrants must clearly identify the pivot and explain how the messaging, campaign, production approach, or go-to-market strategy was adapted. Highlight the impact and effectiveness of these actions on the brand's success. Examples may include shifts in brand positioning, portfolio management, digital acceleration, and more.

Current Events

This category is for cases that effectively leveraged immediate relevance, interest or importance via a targeted marketing/PR strategy around current news & events (e.g. World Cup, Olympics, economic situations, social issues, etc.).

Note: Annual events should enter the Seasonal Marketing category.

Seasonal Marketing – Products/Services

Seasons, holidays and annual events allow marketers the opportunity to build strategic efforts based on the time-based interests of their target audience. This category will honor those efforts that effectively capitalized on a season, holiday or annual cultural event to drive results for their business.
