Specialty Categories

General Specialty

Experiential Marketing: Live / Digital / Live & Digital

This category is not for efforts that focused on TV, radio or print ads to connect with an audience. It is meant to showcase how you can create a brand experience beyond traditional advertising. Work that truly brought a brand or product to life and interacted with a specific audience to achieve desired objectives should be entered. You may have re-invented the product demo, re-imagined the pop-up store, or led a “brick and mortar” retail overhaul; you could have created a new game, an alternate or virtual reality experience or interactive/immersive film experience that effectively showcases a new product or brand personality – it could have been anything. As long as you can prove it truly came alive and worked. The winners of this award will show how advertisers are reaching out to their audiences to establish meaningful relationships, memorable, engaging experiences, and unique connections with their brands.

Entrants must address how the experiential marketing related back to the overall brand strategy. Judges will expect to understand the ‘participation’ in the experience as a core factor.

As with all Effie categories, you can enter whether your work brought the brand to life as the entire marketing effort or as part of the larger marketing programme.

Business to Business

This category is for marketing efforts from businesses targeting other businesses. Business-to-business efforts for any type of product or service, from any marketplace segment, are eligible to enter.

Use of Content

This category is for efforts that effectively reached their audience through the creation of original branded content that is not advertising. The award honours branded content led ideas that are the heart of the communications programme.

Business Challenges

Corporate Reputation

This category is for marketing efforts that promote corporations, not exclusively their products. Includes sponsorships, image & identity. In addition to presenting metrics related to the reputation, entrants are encouraged to also address how these metrics relate to the business of the brand and why they are important.

David vs. Goliath

This is an award for smaller, new, or emerging brands:

- making inroads against big, established leaders
- taking on "sleeping giants"
- moving into a new product/service field beyond their current category and set of competitors to tackle a dominant leader

Entrants must detail the business challenge, the competitive landscape, and how their business succeeded despite the odds. You are required to define your competitive landscape, including the market difference between the David and Goliath to demonstrate why your brand was a David.

Judges will deduct from your case if you do not sufficiently prove that your brand is a David in the situation.

Marketing Disruptors

This award is for efforts that grew their business / brand by changing the marketing model in ways that drive the industry forward. A marketing disruptor of any size can enter. Entrants must detail the marketing challenge, the competitive landscape and how they succeeded by changing the existing marketing model for the brand / category.

Small Budgets: Non-Profit / Products / Services

Experiential Shopper Marketing

This award will feature work that truly brought a brand, product or retailer to life – either literally or virtually – and interacted with shoppers to influence conversion. You may have re-invented the product demo, re-imagined the pop-up store, or led a “brick and mortar” retail overhaul, or created a new game/interactive film experience that effectively showcases a new product or brand personality. As long as it truly came alive and worked. Entrants will need to demonstrate the effectiveness of the action for the brand. Examples can include a pivot in positioning, a change in portfolio management, a digital acceleration, etc.

Data-Driven

Brands and retailers using data, analytics, and technology to identify and match the right shopper to the right message at the right time should enter this category. Award submissions should explain how entrants utilised data (i.e., category data, retail channel data, shopper data) to guide commercial growth strategies, support the shopper journey, and ultimately meet their business objectives and impact the purchase decision. Highlight any advanced analytic capabilities that contributed to the success of the programme, such as market mix modelling, price elasticity, and Return On Investment (ROI) measurement & analysis.

E-Commerce

The category is for campaigns that effectively used insights, strategy, creative and analytics to drive e-commerce shopper conversion. By utilising data, and a deep understanding of the shopper, brands and retailers can succeed in an e-commerce setting.

A successful effort will combine strong shopper knowledge with digital marketing practices to increase conversion online. The effort must be based on a shopper insight(s) and be shopper-driven. Explain the strategy of how the effort went to market with e-commerce. Submissions in this category will be solely evaluated on e-commerce effectiveness.

New Product / Service Introduction

To enter this category, your case must address the commerce/shopper effort surrounding the launch of your new product/service. Whether it is the creation of a whole new brand, a new product from an existing brand, or a new line extension, submissions in this category need to present how shopper insights were leveraged to overcome the barriers faced by products/services being launched for the first time.

If you are submitting an effort that was part of or inspired by a national campaign, explain how you adapted it for the shopper and the retailer.

Commerce & Shopper

Omni-Channel Shopper Solution New

In a time when people have more choices than ever, delivering an effective omni-channel experience to shoppers is key to sustained business success. This category will look for cases that exemplify the manufacturers and retailers who have ensured an effective, connected shopper journey.

This category is meant to showcase how manufacturers and retailers are connecting the dots in their engagement strategies to ensure simple, seamless, effective experiences across the shoppers' path to purchase.

In-store, online, customer service, loyalty programs, mobile apps, delivery services, social media, aisle disruption... it could entail anything - as long as you can show how it was all connected to provide a fully-integrated "shopper journey" from beginning to end.

Winners in this category will represent the best examples of manufacturers and retailers committed to providing effective omni-channel shopper programmes.

Digital

Engaged Community: Products, Services ^{New}

This category is about managing effective, engaged communities. Entrants will be brands that are creating content, experiences, platforms, news, etc. that get their communities to grow, engage, share, act or amplify messaging in a way that directly relates to the brand's goals. Entrants will need to state clearly how they managed the community, how they defined effectiveness around the community, what they specifically achieved, and why the engaged community was significant for the development of the brand/business.

Influencer Marketing

This category honours those brands that effectively worked with key influencers to reach their target audience to achieve short or long-term marketing goals. Key influencers/opinion leaders may be a social media / vertical platform leader, brand ambassador, bloggers, etc. from micro to macro.

Explain why the brand selected that influencer, how they were used to carry out marketing activities, and what consumer behaviours were impacted and how the business was impacted.

Performance Marketing

This category recognises the most effective performance marketing efforts. To participate your effort must be led by performance marketing and you must demonstrate how your effort drove results for the business using performance marketing KPIs.

Note: Entrants must use the performance marketing entry form when submitting under this category.

Social Media Marketing

This category is for campaigns that set out with the explicit purpose of using social as the primary touchpoint or have social at their heart. The kind of idea that is specifically designed to take advantage of the socially connected consumer and the influence of social. Judges are looking for campaigns that begin with a social idea, as opposed to advertising or integrated campaigns with a social media element. They will need a clear rationale for why social was the right way to tackle the brief, and evidence of how social activity measurably and materially drove the commercial result. It is not enough to count the number of impressions, likes or shares. You will need to measure and prove the commercial value of social through the direct effect it had on audience behaviour or perceptions and demonstrate correlation with the achieved business results.

Health & Wellness: Disease Awareness & Education

(refer to Health & Wellness Effie section on page 20)

Media Planning & Innovation

Data-Driven

These efforts should prove how they specifically utilised data to optimise media to improve business outcomes (brand KPIs, ROI, performance marketing measures, etc.). The best examples will recognise the interplay and application of automation, applied technology, and human and artificial intelligence (AI) to deliver to a precise audience and achieve the best results.

To enter, your case must detail the role that data had within the media strategy in achieving the brand and business goals.

Submissions are expected to:

- Utilise personalised/custom-tailored creative messages.

- Demonstrate the insights captured from data used to understand audience.

Media Content Partnerships ^{New}

This category focuses on efforts based on partnerships between a brand and a media owner/platform to create and activate original media content beyond traditional advertising.

These partnerships demonstrate the innovative consumer connections that media companies can develop of advertisers via integrated communication channels centred on creative and strategic content. Each activation channel is critical to delivering the overall effectiveness and impact of the campaign and shows the value media companies can deliver.

The winners of this award will represent those advertisers and media partners that knew exactly where and how to connect with their audience via the assets and creativity of a media company. Submissions must detail the strategic reasoning behind the partnership - why was this partner chosen over others? Clearly detail the selection process of the partner, and explain how this partnership led to the results that met the objectives of the brand.

Media Idea

This is about outstanding effectiveness as a result of media-led ideas. The line between what constitutes a creative idea and a media idea is blurring. There are occasions when the media idea drove the entire effort. Of course, media cannot exist without the content, but this award is intended to recognise those cases that were led by the media thinking - where the integration of media and message led to success. The award honours media-led ideas that are powerful enough to become the genesis of the marketing programme itself, to the extent that the programme would not have been successful without the strategic media idea.

- 👉 This audio / video should be 1 audio / video only, 3 mins* maximum, 280MB maximum file size and .mp4 format and to be submitted via an online streaming video platform. No Online Storage is allowed include at least 1 example of each of the integral communications touch points mentioned in your Written Brief. The reel should feature any and all types of integral creative work, including vital print, radio, web, direct mail, OOH etc
- 👉 TVC, Radio or web activity can be showcased with original track. You MUST integrate them into your submitted 3-min* video
- 👉 Complete commercials should be shown - except where editing is necessary because of time (e.g. events, guerrilla marketing activities, sampling, branded content in TV or games etc)
- 👉 Commercials / video content longer than 3 mins* may be edited for time
- 👉 You can use editing features such as voiceover, text, etc. to better explain the work shown, especially for events, guerrillas & iDA tools such as websites, mobile apps, games etc. solely for the purpose of explanation and NO "Production Value Embellishment" with value judgment comments
- 👉 You may only use editing effects when it will not interfere with the judges' ability to discern how the work ran in the marketplace. E.g. you cannot run a background music track behind your TV commercial as it plays on the video. You can run music behind your print ads as they scroll by, since it will be clear that the print did not air in the marketplace with music
- 👉 All materials must be real work i.e. end products that actually aired in the market
- 👉 English translation for radio commercials must be in typeface in soft copy and uploaded on the entry form. English subtitles for TVCs are recommended to run concurrently in videos
- 👉 Reminder, the judges read your Written Briefs before watching the videos. They know your objectives, challenge, strategy, and results, the video should focus on the work itself - not much about other elements that were already stated in your Written Briefs.
- 👉 Do not make campaign or walk-through videos i.e. "making-of" of the campaign as the purpose of the video is to show your work as it ran in the marketplace and for the Judges to experience your work as your audience
